three (3)
Satisfactory.

The contractor was instructed to make a formal application for contractual extension of time by telephone and agreed to do so on this visit.

The contractor has completed the three prototypes and plans to ship them this month in an effort to terminate the Task Order. Commutators had not been provided with a desired 7.42 spacing. (See Report No. 3) The contractor requested that we accept shipment of the prototypes with their present commutator (8.0 spacing) and said that he would provide the desired commutators as received from a sub-contractor. The undersigned agreed.

As required by your office preliminary to contractual

termination.

APPROVED:

Chief, Engineering Division, OC
